

SIGN OUT SPACE
SIGN OUT SPACE

YOU MUST UNPLUG? CREATE
THE SIGN OUT SPACE.

HERE'S A WORRYING FACT:

Studies show that the typical individual unlocks his phone more than 110 times every day.

We created a flexible shell where user can choose to either create a chair or a simple privacy space to unplug from the real world.

PURPOSE:

Our design helps users with anxiety and ADHD to stay focused and relaxed by being able to play music and lights, where each has its own effect on human brain.

Noise to help you sleep:

- brown noise
- white noise
- pink noise

music:

- distressed
- happy
- sad
- anxiety

FORM:

The overall form consists of triangles and hinges that are attached between each triangle.

Inspired by the triangle instrument that date back to the 10th century which is the simplest instrument to play.

MATERIALS:

- soundabsorbing foam.
- 3mm MDF.

LAYERS AND ELECTRONICS

the ceiling consists of 3 layers where the wires are located.
